

**OssoCrete** is a fast-acting polymer ceramic cement that bonds permanently to concrete, metal rebar, and asphalt. It is a patent-pending formulation utilizing advanced technology, specifically for repair of walkways, curbs, parking lots and roadways.

**Tired of fixing broken concrete over and over again?** Cold patch, asphalt and a do-it-yourself bag all fail quickly despite best efforts. The problem is the material – no matter how well installed these solutions are temporary. With OssoCrete, *the repairs are strong and virtually indestructible.*

**Urgent repairs needed? Wait until spring?** Weather issues are NO issue for OssoCrete, it *installs equally well in all weather conditions* – wet, dry, hot, cold.

**Is your unsightly broken concrete also a tripping hazard?** Remove the risk and beautify your property at the same time. Now we offer *color-matching for concrete repair* – and it's still the same indestructible formulation.

Let us take your concrete repair off your 'To Do' list. Call us today at 618-451-2621 to experience the OssoCrete option for your concrete repairs.

**OssoCrete Advantages:**

- Ultra-fast acting for nearly instant concrete repair  
*"On an 80 degree day, roadway potholes can be repaired and ready for traffic in literally 5 minutes. This dramatic reduction in curing time results in dramatic reductions in lane closures."*  
--Dan Ossola, Ossola Industrials
- When cured it is literally stronger than concrete, whether the repair requires feathering in or a deep fill
- Product has no shrinkage and ultra-low permeability, making it an excellent choice for freeze-thaw resistance
- Can be applied in any temperature, any weather
- No cutting is required, just remove loose materials and fill
- Materials are 100% inorganic, non-combustible, high heat resistant
- Materials have a **low carbon footprint** compared to concrete
- Our color matching (to existing concrete) capabilities provide a visually appealing repair result

Manufactured in the U.S.A. by Ossola Industrials,  
a customer-driven company for 23 years.
